EXPERT REPORT OF MAXWELL PALMER, PH.D.

I, Dr. Maxwell Palmer, declare as follows:

1. My name is Maxwell Palmer. I am currently an Associate Professor of Political Science at Boston University. I joined the faculty at Boston University in 2014, after completing my Ph.D. in Political Science at Harvard University. I was promoted to Associate Professor, with tenure, in 2021. I am also a Civic Tech Fellow in the Faculty of Computing & Data Sciences and a Faculty Fellow at the Initiative on Cities. I teach and conduct research on American politics and political methodology.
2. I submitted reports in this matter on March 8, 2023 and March 15, 2024. My qualifications are set out in my first report. An updated curriculum vitae is attached to this report.
3. I have been asked by counsel at Fink Bressack to describe the methodology used to advise the Michigan Independent Citizens Redistricting Commission (MICRC) with its task of redrawing Senate districts in the Wayne County area. I was also asked to opine on the Special Master's evaluation of the ability of Black voters in Senate District 7 to elect their preferred candidates under the proposed map.
4. In advising the MICRC on whether the proposed state senate plans complied with the Voting Rights Act, I used the same methodology that I developed in collaboration with Dr. Lisa Handley for the state house remedial process in January and February, 2024. That methodology was described in detail in my March 15, 2024 report.
5. We developed two approaches to examine whether Black-preferred candidates would be likely to win the Democratic primaries in the proposed district. In the first method, we estimated turnout in the Democratic primary. When estimated Black turnout exceeds estimated White turnout in the Democratic primary, it is possible for Black voters to elect their candidate of choice when they cohesively support one candidate, even if White voters are cohesive in their opposition to that candidate. In the second method, we use the Michigan voter file and general election results to estimate the number of Black and White voters who supported the Democratic candidate in the general election. We call this group the "Democratic Primary Pool," and they represent the set of Democratic voters who could be potentially mobilized to vote in the Democratic primary. When there are more Black voters than White voters in this group, it suggests that there is a sufficiently large population of Black Democratic to nominate the Black-preferred candidate in the primary if they cohesively support a single candidate.
6. Both of these methods rely on a conservative assumption that Black voters cohesively support a single candidate and that White voters cohesively support a single candidate, such that the primary contest is highly polarized. If White voters are less cohesive

than Black voters, then these districts would elect Black-preferred candidates with lower levels of Black voter turnout in the primary. Additionally, it is in two-candidate highly-polarized primaries like these where performance can most clearly be analyzed. When there are many candidates or when voting is less polarized, there may not be identifiable Black-preferred and White-preferred candidates, and the performance question is not clearly answerable. In my first report in this matter I examined many cases of primaries where the preferred candidates are not clear, or where there were not preferred candidates.

7. In the July 12, 2024, “Report of the Reviewing Special Master,” Dr. Grofman uses the VRA analysis of the Crane A1 map to assess performance of Senate District 7 (p.13, at 6). Dr. Grofman writes “The Commission labels District 7 an additional (fourth) realistic opportunity to elect district, because, by their estimates, African American potential voters in the Democratic primary outnumber potential non-African American voters in that primary. But the margin they estimate is very small (31.2% vs. 30.6%).” In this analysis, Dr. Grofman relies on the second measure of VRA performance, the Democratic primary pool, alone. However, the first measure, estimated turnout in the 2018 and 2022 primary elections, provides further evidence that SD 7 is likely to perform as an opportunity to elect district. I estimate that in the 2018 Democratic primary, 54% of the voters were Black and 41% of the voters were White, and in the 2022 Democratic primary, 50% of the voters were Black and 45% of the voters were White. In both elections, Black voters made up a larger share of the Democratic primary electorate than White voters. Therefore, in a polarized election where Black voters cohesively support one candidate and White voters cohesively support a different candidate, Black voters would have the opportunity to elect their preferred candidate in a Democratic primary with similar levels of turnout.
8. Both metrics for VRA performance, estimated Democratic primary turnout and estimated Democratic primary pool, are valuable for assessing the ability of Black voters in SD 7 to elect their candidates of choice. As described in my March 15, 2024 report, these metrics are calculated using different data sources, and reflect different approaches towards measuring opportunity to elect.¹ The fact that both metrics indicate that SD 7 would perform as an opportunity to elect district for Black voters indicates that, despite the narrow margin highlighted by Dr. Grofman in the Democratic primary pool result, Black voters are likely to outnumber White voters in Democratic primaries in this district.

¹The Democratic primary turnout metric relies on past primary election turnout data and census data to estimate turnout rates by race in Democratic primaries in each county. The Democratic primary pool metric uses voter registration data to estimate the race of each registered voter in the district, and combines that with general election results to estimate the number of Democratic voters of each race who could participate in the primary.

I reserve the right to supplement my report in this case in light of additional facts, testimony, and/or materials that may come to light.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge and belief.

A handwritten signature in dark ink, appearing to read "Maxwell Pal", followed by a horizontal line.

Maxwell Palmer

Executed this 18th day of July, 2024, at Arlington, Massachusetts.

EXPERT
TESTIMONY
AND CONSULTING

Bethune-Hill v. Virginia (3:14-cv-00852-REP-AWA-BMK), U.S. District Court for the Eastern District of Virginia. Prepared expert reports and testified on racial predominance and racially polarized voting in selected districts of the 2011 Virginia House of Delegates map. (2017)

Thomas v. Bryant (3:18-CV-441-CWR-FKB), U.S. District Court for the Southern District of Mississippi. Prepared expert reports and testified on racially polarized voting in a district of the 2012 Mississippi State Senate map. (2018–2019)

Chestnut v. Merrill (2:18-cv-00907-KOB), U.S. District Court for the Northern District of Alabama. Prepared expert reports and testified on racially polarized voting in selected districts of the 2011 Alabama congressional district map. (2019)

Dwight v. Raffensperger (No. 1:18-cv-2869-RWS), U.S. District Court for the Northern District of Georgia. Prepared expert reports and testified on racially polarized voting in selected districts of the 2011 Georgia congressional district map. (2019)

Bruni, et al. v. Hughs (No. 5:20-cv-35), U.S. District Court for the Southern District of Texas. Prepared expert reports and testified on the use of straight-ticket voting by race and racially polarized voting in Texas. (2020)

Caster v. Merrill (No. 2:21-cv-1536-AMM), U.S. District Court for the Northern District of Alabama. Prepared expert report and testified on racially polarized voting in selected districts of the 2021 Alabama congressional district map. (2022)

Pendergrass v. Raffensperger (1:21-CV-05339-SCJ), U.S. District Court for the Northern District of Georgia. Prepared expert reports and testified on racially polarized

voting in selected districts of the 2021 Georgia congressional district map. (2022)

Grant v. Raffensperger (1:22-CV-00122-SCJ), U.S. District Court for the Northern District of Georgia. Prepared expert reports and testified on racially polarized voting in selected districts of the 2021 Georgia state legislative district maps. (2022)

Galmon, et al. v. Ardoin (3:22-cv-00214-SDD-SDJ), U.S. District Court for the Middle District of Louisiana. Prepared expert reports and testified on racially polarized voting for the 2021 Louisiana congressional district map. (2022)

United States v. Robert Bowers (2:18-cr-00292-DWA), U.S. District Court for the Western District of Pennsylvania. Prepared expert reports on the demographics of the voter registration list and composition of the master jury wheel. (2020–2023)

Agee, et al. v. Benson, et al. (1:22-CV-00272-PLM-RMK-JTN), U.S. District Court for the Western District of Michigan. Prepared expert report and testified on racially polarized voting and racial predominance in the Michigan House and Senate maps adopted by the Michigan Independent Citizens Redistricting Commission. (2023)

In Re: Georgia Senate Bill 202 (1:12-MI-55555-JPB), U.S. District Court for the Northern District of Georgia. Prepared expert report and testified on demographics and racially polarized voting in Georgia. (2023)

Vet Voice Foundation, et al., v. Hobbs, et al. (No. 22-2-19384-1 SEA), King County Superior Court, Washington. Prepared expert reports and testified on ballots rejected for non-matching signatures in Washington. (2023)

Vet Voice Foundation, et al., v. Griswold (No. 2022CV033456), District Court, City and County of Denver, State of Colorado. Prepared expert reports and testified on ballots rejected for non-matching signatures in Colorado. (2023)

"Brief Of Political Science Professors As *Amici Curiae* In Support Of Appellees," in the case of *Alexander vs. South Carolina State Conference of the NAACP*, in the Supreme Court of the United States (No. 22-807). (with Stephen Ansolabehere, Bruce E. Cain, James M. Snyder, Jr., and Charles Stewart III)

Racially Polarized Voting Consultant, Virginia Redistricting Commission, August 2021.

The General Court of the Commonwealth of Massachusetts, Joint Committee on Housing, Hearing on Housing Production Legislation. May 14, 2019. Testified on the role of public meetings in housing production.
